Don't miss this! NEW this Summer! HACK IT: Return to the Killer Robot Factory

Help us hack into a computer game, rewrite the music, create sound effects and animation. You will even be changing the controller by wiring it up to objects. You will need your creative, gaming and practical skills to build this installation. The Juniors (8-12 year olds) will start the process and the Senior group (13-18) will take it forward. See the Activity Programme on page 2 for details.

There will be an unveiling of the finished installation at the end of the last session on **11th August**, when all involved, plus family and friends, will be invited to experience the wonder of your creativity.

In partnership with OYAP and supported with investment from Artsworld, the South East Bridge.

Please remember to put **sun cream** on your child **before attending our Activities** or, if they can apply it themselves, they can bring it with them. Some activities are outside and therefore sun cream and a sun hat should be provided as well as a raincoat if the weather is cold/wet. Some activities such as gaming are largely indoors but if the weather is reasonable children and young people will be encouraged to go outside at some point during the day and so sun cream and hat should still be provided.

IMPORTANT NOTICE ABOUT SERVICES

Oxfordshire County Council are recommissioning services for disabled children from April 2017, including short breaks (holiday play schemes, and youth groups) and overnight respite.

Proposed budget cuts could threaten our family support work.

Currently Oxfordshire County Council supports our highly valued and expert work by commissioning us to provide:

- School holiday activities
- Two of our youth groups: Saturday youth group in Oxford, and *Stuff* youth group in Abingdon
- Two Family Support Workers to provide autism-specific information, advice and support across Oxfordshire; coordinate our Activities; and support children to attend activities.

However, proposed cuts may mean **our family support work may NOT be funded** from April 2017 and the following services may be **critically at risk**:

- **ALL information, advice, and support to parents and young people, currently carried out by Becky Loveless and Sam Burkin – the only 2 family support workers specifically supporting families living with autism in Oxfordshire.**
- Advice surgeries, telephone and email support to parents, young people, and professionals.
- Individual work with children and young people.
- Weekly E-bulletins, and regular information by social media.
- Challenging Behaviour course.
- Abingdon Aspies parent support group for parents on the spectrum.
- Joint facilitating of EarlyBird parenting course.
- Workshops for young people.
- Training and consultation for professionals.

**We know the impact on our families will be devastating, as many of you rely on our support.
We fervently request your comments and support.**

Oxfordshire County Council are seeking feedback from parents and professionals - so that they can provide **services that most meet the needs of disabled children and young people and their families.**

YOUR FEEDBACK IS VITAL and there are several ways to have your say.

- **Go ONLINE:** Visit www.digitalforgood.org/occ-survey and complete the very short survey from Oxfordshire County Council. PLEASE NOTE: Family support is not specifically mentioned in the survey! But you can use the blank comment boxes to express the services you value, including our family support work. **Closing date for replies is 9th June 2016**
- **Attend a PUBLIC MEETING:** We are holding **two** public meetings to inform you of the proposed cuts, discuss the impact on our service, and to share ideas on how we can all help to sustain our work
